Chief Executive Officer's Statement

The Directors of Tropical Battery Company Limited are pleased to present the unaudited results of the Group for the third quarter and nine months ended June 30, 2026.

Q3 REVENUE	9MO REVENUE	9MO EBITDA	9MO NET PROFIT
J$1.60B	**J$4.86B**	**J$573.8M**	**J$85.7M**
+9.3% year on year	+5.1% year on year	+101.4% year on year	from a J$166.6M loss

Results

Revenue for the quarter was J$1.60 billion, an increase of 9.3% over the J$1.46 billion recorded in the corresponding quarter of the prior year. Gross profit of J$641.9 million represented a gross margin of 40.2%, compared with 36.1% in the prior-year quarter. Operating profit for the quarter of J$218.3 million was 106.7% ahead of the prior year. The Group recorded a net profit of J$48.5 million for the quarter, compared with a net loss of J$59.8 million in the third quarter of the prior year.

For the nine months ended June 30, 2026, revenue was J$4.86 billion, 5.1% ahead of the J$4.63 billion recorded in the corresponding period. Gross profit of J$1.92 billion represented a margin of 39.4%, compared with 33.9% in the prior period. Operating profit of J$499.4 million was 80.4% ahead of the prior period, and EBITDA of J$573.8 million more than doubled the J$285.0 million previously recorded. The Group returned a net profit of J$85.7 million for the nine months, compared with a restated net loss of J$166.6 million in the corresponding period — a turnaround of J$252.4 million.

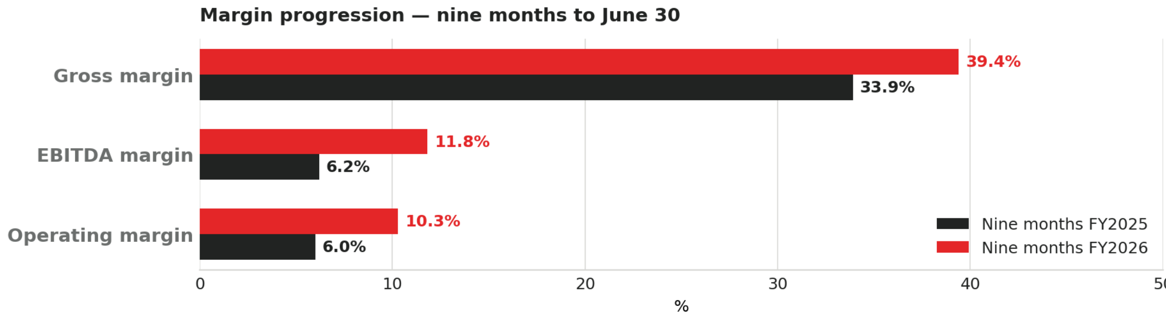
Earnings per stock unit for the nine months were J$0.037, compared with a loss per stock unit of J$0.113 in the prior period.

The Group's cost of sales for the nine months decreased by 3.7% to J$2.95 billion, despite a 5.1% increase in revenue. This reflects sustained work on procurement and supplier mix, including improved terms negotiated across the Group's principal battery suppliers and a shift toward higher-margin product lines within both the energy storage and renewable energy segments. Improved realisations in the spent battery export programme, where average selling prices rose to US$965 per tonne from US$538 per tonne in the comparable period, further contributed to the margin improvement.

Operating expense discipline was a feature of the quarter. Administration, marketing and selling expenses of J$423.5 million were broadly level with the J$422.0 million recorded in the third quarter of the prior year, an increase of 0.3%, while gross profit over the same comparison grew by 21.6%. The Group also achieved a sequential reduction in operating expenses compared with the second quarter of the current year, as cost management measures implemented during the first half took effect. Operating profit for the nine months of J$499.4 million was 80.4% ahead of the prior period.

The Group's renewable energy business continued to build scale, contributing revenue of J$571.5 million and operating profit of J$131.8 million for the nine months across the Group's Jamaican and Dominican Republic operations, with a growing order book of commercial and industrial solar projects. The Group's United States subsidiary also delivered improved profitability, with net income for the nine months substantially ahead of the comparable period on a broadly similar revenue base.

Other operating income of J$74.4 million for the nine months includes non-recurring items of J$69.1 million arising from the sale and leaseback transaction; the balance of the Group’s improvement is attributable to trading performance rather than to one-off gains. Net finance costs of J$306.8 million for the nine months remain the principal constraint on reported earnings.



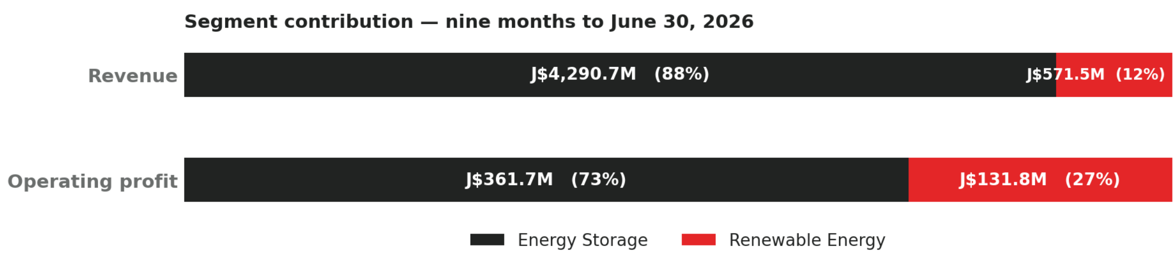
Balance sheet and capital structure

During the quarter, the Company completed the sale-and-leaseback of its Lot 12 Ferry property, realising proceeds of approximately J$977.9 million. The proceeds were applied principally to the settlement of amounts due to a fellow subsidiary, to the reduction of short-term borrowings, and to working capital.

At June 30, 2026, the Group held net current assets of J$1.046 billion and shareholders' equity attributable to owners of the Company of J$1.68 billion. Amounts due to a fellow subsidiary stood at J$31.8 million and short-term loans at J$978.4 million. The leaseback has been recognised as a right-of-use asset of J$679.5 million, with corresponding lease liabilities of J$703.9 million.

Operations

Both of the Group's reportable segments contributed to the improved result. The Energy Storage segment recorded revenue of J$4.29 billion and operating profit of J$361.7 million for the nine months. The Renewable Energy segment recorded revenue of J$571.5 million and operating profit of J$131.8 million, continuing the growth trajectory established in the first half.



The Group continues to invest in its renewable energy platform across Jamaica and the Dominican Republic, as well as in technology and automation initiatives across its Jamaican operations.

Outlook

The Group enters the final quarter of the financial year with a strengthened liquidity position, improved margins and a growing renewable energy order book, and the Directors anticipate closing the year ahead of the prior year on both revenue and earnings.

The Directors thank our shareholders, customers, employees and business partners for their continued support.

**Comparative figures for the prior period have been restated. Interest expense and interest income of J$50.7 million arising on the Group's US$13 million loan facility in respect of August and September 2024 were recorded in the period commencing October 2024 rather than accrued in the year ended September 30, 2024, and have been restated to the correct period in accordance with IAS 8. Results for the period include a gain on disposal of J$17.5 million and a fair value credit on contingent consideration of J$51.6 million arising from the sale and* *leaseback of the Lot 12 Ferry property, both presented within other operating income. Certain comparative figures have been reclassified to conform to the current period's presentation. Further detail is set out in the notes.*

Notes to the Interim Financial Statements

For the third quarter and nine months ended June 30, 2026 and expressed in Jamaican dollars unless otherwise stated.

1. Identification and principal activities. Tropical Battery Company Limited is a public company incorporated and domiciled in Jamaica, with its registered office at 30 Automotive Parkway, Ferry Commercial Park, Kingston 20. Its ordinary shares are listed on the Jamaica Stock Exchange. The Company is a subsidiary of Dai Diverze (Jamaica) Limited, and its ultimate parent company is Diverze Assets Inc. The Group comprises Tropical Battery Company Limited and its subsidiaries Tropical Battery (USA) LLC, Rose Electronics Distributing Company LLC, KAYA Energy Group SRL (51% owned), Tropical Renewable Energy Limited and Tropical Mobility Limited. The principal activities of the Group are the distribution of batteries and related accessories, the design and manufacture of custom battery packs, and the supply and installation of renewable energy and energy storage systems.

2. Basis of preparation. These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with IAS 34, Interim Financial Reporting. They do not include all of the information required for a complete set of annual financial statements. They should be read in conjunction with the Group's audited financial statements for the year ended September 30, 2025. The accounting policies applied are consistent with those adopted in the most recent annual financial statements. The financial statements are presented in Jamaican dollars, the Company's functional currency.

3. Restatement of comparative figures. Comparative figures for the prior period have been restated. Interest expense and interest income of J$50.7 million arising on the Group's US$13 million loan facility in respect of August and September 2024 were recorded in the period commencing October 2024, rather than accrued in the year ended September 30, 2024. The comparative figures have been restated to recognise these amounts in the correct period in accordance with IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors. The restatement did not affect the Group's cash flows. Certain other comparative figures have been reclassified to conform to the current period's presentation.

4. Gross operating revenue. Gross operating revenue is disaggregated by product and service line as follows:

Third quarter ended June 30, 2026	Q3 (3 mths) 2026
Battery sales	1,284,245,854
Accessories	110,362,753
Renewable energy	213,776,217
Tyre sales	15,654
Net sales before discounts	1,608,400,478
Discounts on all products	(10,131,074)
Gross operating revenue	**1,598,269,404**

Revenue by reportable segment for the quarter and the nine months is set out under Segment Information above. Over the nine months, the Energy Storage segment contributed J$4,290,659,335, and the Renewable Energy segment contributed J$571,451,094.

5. Sale and leaseback of property. During the quarter, the Group completed the sale and leaseback of its Lot 12 Ferry property, realising proceeds of J$977,926,001 and resulting in a gain on disposal of J$17,495,000, which is included in other operating income. The leaseback has been recognised as a right-of-use asset with a corresponding lease liability, measured in accordance with IFRS 16.

6. Borrowings. Short-term loans comprise a senior secured facility from CIBC Caribbean Bank (Jamaica) Limited (formerly FirstCaribbean International Bank (Jamaica) Limited) of US$5.5 million, bearing interest at 8.5% per annum, and revolving credit lines held by two subsidiaries of up to US$1,500,000 and RD$5 million, bearing interest at 8.58% and 16.95% per annum, respectively. Long-term loans comprise convertible cumulative redeemable preferred equity of US$13 million issued to Sygnus Credit Investments Limited, classified as a financial liability under IAS 32 and measured at amortised cost, bearing interest at 10% per annum with maturity extended to July 2027; secured notes of J$300 million maturing July 2027 and J$250 million maturing October 2029; a CIBC Caribbean Bank (Jamaica) Limited facility of J$200 million maturing October 2027; a CIBC term facility commencing October 2023 for a seven-year tenure; a motor vehicle facility from Stewart Finance Jamaica Limited maturing November 2030; and an unsecured loan from the ultimate parent company bearing interest at 11% per annum and maturing October 2027.

	June 30, 2026	September 30, 2025
Short-term loans	978,407,940	1,426,255,717
Current portion of long-term loans	444,350,941	362,068,460
Long-term loans (non-current)	2,754,846,890	2,530,044,855
Total borrowings	**4,177,605,771**	**4,318,369,032**

7. Related party balances and transactions. The Group transacts with its parent, fellow subsidiaries and other entities under common control in the ordinary course of business. For the nine months, interest income earned from related parties was J$63.4 million and compensation for key management personnel was J$179.0 million, together with share-based payments of J$11.8 million.

8. Share capital. Issued and fully paid share capital at June 30, 2026, was 1,741,890,573 ordinary shares of no par value (September 30, 2025: 1,369,377,273). During the nine months ended June 30, 2026, the Company recognised equity-settled share-based payments of J$11,796,732.

9. Earnings per stock unit. Earnings per stock unit are calculated by dividing the profit attributable to owners of the Company by the number of ordinary shares in issue. For the nine months ended June 30, 2026, this gives J$0.037 (2025 restated: loss per stock unit of J$0.113).

10. Contingent liabilities. A subsidiary of the Group has been advised that the country of origin of a product line supplied to one of its customers may be assessed differently from the basis on which it has been declared, which may give rise to a retrospective customs duty liability. The matter is at an early stage; the amount cannot presently be estimated with sufficient reliability; accordingly, no provision has been recognised. If the potential obligation becomes payable, the company will invoice the customer(s) for reimbursement.

Shareholdings

As of June 30, 2026. Issued and fully paid share capital: 1,741,890,573 ordinary shares of no par value (September 30, 2025: 1,369,377,273).
